EDUCATION

Concordia University

Bachelor of Software Engineering - Co-op

Aug 2022 - Dec 2026

Montreal, Canada

EXPERIENCE

Software Developer Intern

Expedia Group

- Mobile Development Multi Channel Shopping Team. Container Migration in Swift and Kotlin

May 2026 - Present

Montreal, Canada

Solutions Architect Intern

Ericsson

- Led design of **GPU-powered system architecture**, coordinating cross-team requirements and delivery timelines.
- Developed on a secure **AI-agentic TypeScript VS Code extension** with **44 features**, adopted by **hundreds of engineers**.
- Built a **ClickHouse + PostHog** analytics pipeline and enhanced MCP chatbot retrieval, automation, and performance.
- Delivering architecture for centralized AI model management platform to manage model lifecycle with governance.

September 2025 – May 2026

Montreal, Canada

AI Software Developer

CIMA+

- Automated ETL on **5,000+** records with **Pandas** and **NumPy**; reduced reporting time by **4+ hours** weekly.
- Deployed scalable **Azure** crawlers via **Scrapy/BeautifulSoup**, boosting ingestion by **60%** using Diffbot.
- Benchmarked Jules vs. Codex engineering workflows and designed **FastAPI** APIs for persistent LLM memory.
- Authored **30+ page** AI guide and led trainings for **500+** staff; standards distributed to **2,000+** employees.

May 2025 – Aug 2025

Montreal, Canada

Automation Developer Intern

McKesson Canada

- Automated workflows with **Python, Pandas, VBA**; delivered the automation system **4 months ahead of schedule**.
- Standardized and cleaned **6 years of data**, restructuring the **Quality Management System** for accessibility.
- Built **Excel dashboards** with VBA automation; cut manual effort by **50%** and improved reporting efficiency.

May 2024 – Aug 2024

Montreal, Canada

Software Developer Intern

Alvia Systems

- Developed AI and drone-based software solutions to strengthen site-level resilience against natural disasters.
- Led prototyping of a fuzzy logic fire spread simulator with **Simpful** and geospatial data, enabling early scenario testing.

Jan 2024 – Jun 2024

Montreal, Canada

Software Developer Intern

Pomerleau Inc.

- Built backend features (**Python, C#, ASP.NET, SQL, EF Core**) using **GitHub**; accelerated delivery in Agile sprints.
- Redesigned UI in **Figma** and built responsive **CSS/Bootstrap** layouts; cut UI defects by **95%** and improved mobile/iPad UX.

Sep 2023 – Dec 2023

Montreal, Canada

PROJECTS

University Maps App | React, Jest, Microsoft Clarity, JavaScript, SonarQube, Zenhub, Maestro

Jan 2025 – Apr 2025

- Led a **10-person Agile team** to build a **React Native** navigation app; used **Zenhub** to boost velocity by **30%**.
- Built **CI/CD** pipelines and **Jest** suites; used **SonarQube** and **Sentry** to cut production bugs by **40%**.

Orbit | Hackathon Winner - MLH Best Usage of Gemini API

2026

- Built a **full-stack 3D visualization tool** using **React** and **Python** to identify hidden corporate links and market ripple effects via **AI-driven NLP**.

Socratic | Hackathon Winner - MLH Best Usage of MongoDB Atlas

2026

- Engineered a **VS Code extension** using **TypeScript** and **Gemini API** that delivers AI-guided hints via **MongoDB Vector Search** and **RAG**, optimizing retrieval context for project-specific files to improve student debugging efficiency.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL, JavaScript, HTML/CSS, C#, TypeScript

Frameworks/Testing Frameworks: React, Node.js, Flask, Django, JUnit, Jest, Mockito, OpenWebUI

Developer Tools: Git, Jira, Confluence, Azure Devops, Github Actions, SonarQube

Libraries: pandas, NumPy, Matplotlib, openpyxl, Tensorflow, Keras, Scrapy, BeautifulSoup, sklearn, yfinance

Languages: English, French, Chinese Mandarin, Spanish (Intermediate), Japanese (Beginner)
